Mr. Joseph DeVuono (5HE-12)  
U.S. Environmental Protection Agency  
230 South Dearborn Street  
Chicago, Illinois 60604

Re: Interrelationship Report for the  
Martell Sites

Dear Mr. DeVuono:

Indiana Department of Environmental Management (IDEM) staff received and reviewed two reports completed by your Technical Enforcement support contractor titled "Interrelationship Report of Martell Sites and Companies in the South Chicago and Northwest Indiana Areas" and "Lists of Generators and Transporters for the Paxton Landfill." The following comments refer to the Interrelationship Report.

1. The table of contents lists four attachments which IDEM did not receive. It is requested that the attachments be sent to this office to complete the report.
2. Page 25. The Black Oak Dump site history states that the site lies east of Clark Road. The site is located west of Clark Road at 35th Avenue and Burr Street in Gary.
3. Page 26. The Midco I and II site history states that it is unknown whether or not the Midco I site is currently operating. It is an inactive site.

Any questions or comments should be directed to Ms. Jayne E. Browning of my staff at AC 317/243-5052.

Very truly yours,

*Reginald O. Baker Jr.*
